Management)

## Accessing the NCIR Web Site

To access the NCIR Web site, do the following:

Open your Internet browser. To open your browser, locate the browser icon on your computer's desktop, Program menu, or Taskbar. Once you have located the icon, double click on it with your left mouse button.

If you are unable to see your browser's menu bar, you may have it set to Full Screen view. To switch this view, press F11 on your keyboard. This key toggles the Full Screen view on and off.

Type in the full NCIR address: <https://ncir.dhhs.state.nc.us> .

If you do not reach the security/certificate warnings or the North Carolina Identity Management Service (NCID) login screen after correctly typing in this address, port 443 of your network's firewall may be closed. Contact your network administrator to open this port for outgoing HTTPS, which is secure HTTP.

Depending on your browser, you may receive one or more security/certificate warnings before the browser will open the site. Accept any warnings regarding secure connections or security certificates. Both Netscape® and Internet Explorer will give you the option of turning off these warnings for future use.

At the North Carolina Identity Management Service (NCID) Login screen, enter your username, and password.
